Council member Trevillyan inquired how the cost to the City under this agreement would compare to the current cost of employing crossing guards.

Police Chief Chris Scott responded the cost to the City under this agreement will be significantly less. He also explained the company that is party to this agreement has a metro-wide pool of crossing guards and would ensure the needed amount are dispersed each school day, so the West Des Moines Police Department would never need to provide coverage for absent crossing guards. He noted that the West Des Moines Police Department will be involved in the vetting of the crossing guards that would be working in West Des Moines.

It was moved by Trevillyan, second by Mickelson to approve Item 4(o) Approval of Crossing Guard 28E Agreement - West Des Moines Community School District and City of Windsor Heights.

On Item 5(b) Amendment to City Code - Title 9 (Zoning), Chapter 5 (Agricultural/Open Space and Residential Zoning District) and Chapter 10 (Performance Standards) - Modify Garage Requirements and Establish a Waiver Process for Single-Family Detached Dwellings, initiated by the City of West Des Moines

City Attorney Dick Scieszinski reported the Plan and Zoning Commission has recommended that property owners obtaining a garage waiver should be required to retain the home for at least one year before they can sell it, or they would be required to pay for the cost of constructing a garage. The Development Services Subcommittee recommended the timeframe of that encumbrance should be five years. He noted the details of this provision are not included in the ordinance itself, but they will come forward as a separate policy.

Council member Trevillyan expressed opposition to the proposed ordinance, as he would prefer the garage requirement be deleted from the City Code entirely. He also expressed concerns that a property owner with a dilapidated garage that is torn down as a nuisance violation would not be required to construct a new garage, and he believes this would contradict with the proposed ordinance.

April 15, 2019

Council member Trimble expressed support for the proposed ordinance, stating he does not believe there would be a contradiction with the current nuisance code, since the property owner would have the option of applying for a garage waiver if they meet the low-to-moderate income guidelines.

Council member Trevillyan also expressed concerns that there are homes throughout the city that either have no garage or are using the garage as a non-conforming living space, and he believes such cases would also contradict with the proposed ordinance.

Lynne Twedt, Development Services Director, stated any existing home that does not have a garage today would be “grandfathered” under the proposed ordinance, and not be subject to the garage requirement.

City Attorney Scieszinski noted staff can specify how the ordinance will be applied in different cases as part of the policy that will be brought forward.

Council member Hardman expressed support for the proposed ordinance, as she believes it will help make West Des Moines a more affordable place to live for low-to-moderate income individuals and provide opportunities for organizations like Habitat for Humanity to construct homes in West Des Moines.

Council member Trimble requested that staff add the policy issues to the agenda for discussion a future Development and Planning Subcommittee meeting.

It was moved by Mickelson, second by Hardman to consider the second reading of the ordinance.

Council member Trevillyan reiterated his opposition to the proposed ordinance, as he would prefer the garage requirement be deleted from the City Code entirely. He noted there are other communities in the metro area that don’t have garage requirements, yet the market generally dictates that homebuilders construct homes with garages.

Council member Trimble reiterated his support for the proposed ordinance, as he has seen neighborhoods without garages in other communities and the aesthetics are not good. He stated he believes this proposed ordinance is a perfect balance between allowing for affordable homes in West Des Moines without compromising nice aesthetics.
